

Wooden floorboards with feel-good factor.

The “Barn Wood” design.

Digitally printed flooring

COREPEL

Extra-durable waterproof floor.

— COREPEL is the most robust resilient floor on the market. It is waterproof, dimensionally stable and resistant to scratches and dents. With its high percentage of renewable raw materials, it meets the requirements set out in the Durable Eco Composite (DEC) standard.

PROPERTIES

- Format: 1.380 x 398 x 7.5 mm
- Durable, antibacterial and non-slip
- Integrated Eco Sound Hydro impact sound absorption

“BARN WOOD” boasts an antique wood finish that exudes comfort and calm. Its surface grain and prominent grooves resemble the wooden floorboards in a rustic barn. This comfortable flooring welcomes you home, a place to get away from it all.

Delicate foliage under your feet.

The “LeafWood” design.

UP AND COMING DESIGNERS demonstrate the capabilities of digital printing in this outstanding apprentice project. The gentle foliage designs of “Leaf Wood” on an attractive timber finish create a natural interior ambience, inspired by a forest floor covered in leaves. Its delicate details and organic shapes welcome nature into every room.

Let your imagination run free.

The “Street Art” design.

INVITING ROOMS that make children feel they can play and have fun are currently all the rage. “Street Art” is the perfect floor for this. It brings a wonderful world full of variety into children’s rooms: forests and mountains, cities and farms, skate parks and airports. The pattern does not repeat across an area measuring around 6 m². And thanks to the modular design, laying the flooring is a piece of cake, too.

BE.YOND

The environ-
mentally friendly
particle boards.

BE.YOND is synonymous with particularly eco-friendly particle boards. It is manufactured using bio-based adhesives and meets the most stringent healthy-living and quality-of-space requirements.

- PROPERTIES
- Area: 2,800 x 2,079 mm
 - Thickness: 19 mm
 - At least 98% natural materials
 - Edges available
 - Not available as HPL

THE RUSTIC SURFACE of “Barn Wood” resembles the interior of a traditional barn. The rustic look of the wood grain invites you to relax and unwind. The design exudes an air of permanence and offers the one thing that many people crave: a retreat from the hustle and bustle of everyday life.

Delicate foliage for your home.

The “LeafWood” design.

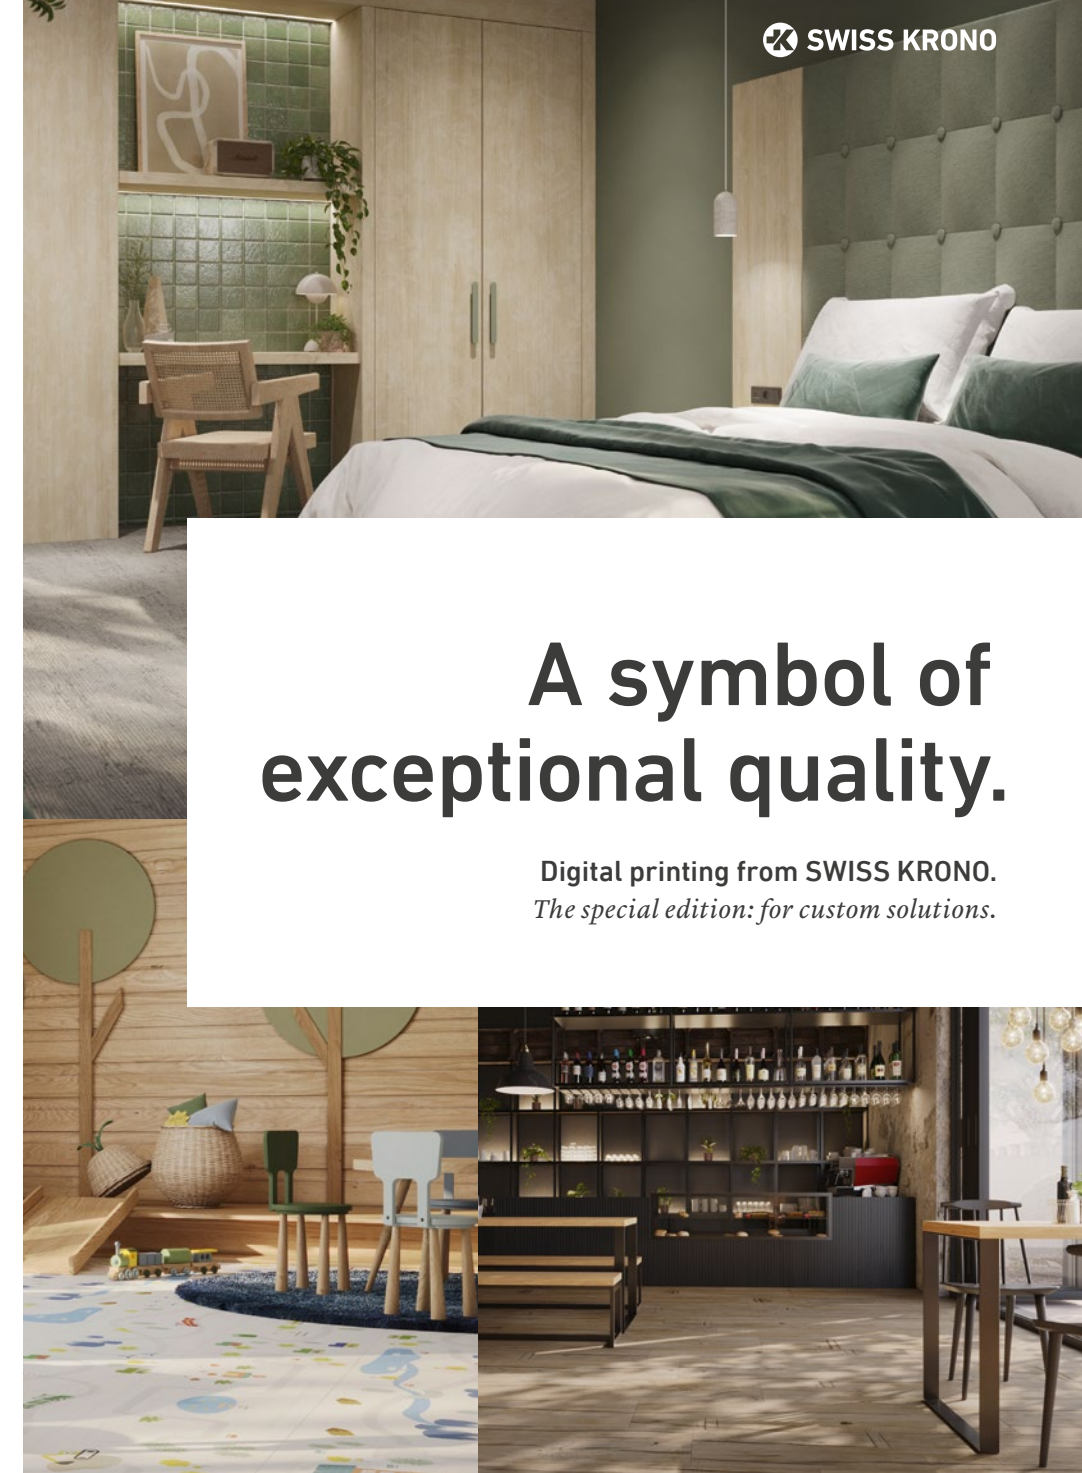

“LEAF WOOD” sets natural accents on selected furniture surfaces, bringing a subtle forest ambience to interiors. Our apprentices have come up with a successful design project which incorporates subtle leaf shapes on a light wooden surface, creating a bright, natural look. This vibrant yet delicate design provides a visual highlight for your home.

At home in the forest.

The “Falora” design.

NOWADAYS, MANY CHILDREN are growing up in concrete landscapes. “Falora” brings both the forest and woodland creatures into the interior. Poetic animal and plant designs on a subtle wooden surface invite little ones to go off on a fabulously fun adventure of discovery. And make them want to see the real-life counterparts in the great outdoors with their own eyes.

A symbol of exceptional quality.
